WHAT SERVICES DO NETTLEHAM MEDICAL PRACTICE PROVIDE?

ACTIVE SIGNPOSTING

The reception staff at Nettleham Medical Practice are trained Patient Care Advisors. This means that they are able to ask patients more questions at the point of booking of appointments to enable them to make the most appropriate appointment with the right member of clinical staff depending on the patient's condition. This could be a GP, Nurse Practitioner, Nurse, Health Care Assistant or an alternative service provider such as a community pharmacy.

This process ensures that patients are seen promptly by the correct clinical staff and has huge benefits, both to the patient and the system as whole by freeing up GP time for those who really need it.

It is important for patients to understand they are not being nosy and the information being asked for is very much in their best interests. We also hope that our patients will find this directory useful in pointing them in the right direction for their care needs.

HOW TO BOOK AN APPOINTMENT AT NETTLEHAM MEDICAL PRACTICE

GP AND NURSE PRACTITIONER APPOINTMENTS

The Practice uses Ask My GP for patients wishing to request a GP or Nurse Practitioner appointment. We ask you to go to our practice website and complete a quick and simple online form which is sent directly to a GP of your choice. The GP will then contact you either via Ask My GP or by telephone to help with your problem or to arrange a face to face appointment. Please note that our Receptionists can not book you in directly with a GP or Nurse Practitioner. If you do not have access to the internet, our receptionists will submit an Ask My GP request on your behalf.

- **Ask My GP is available 24/7 and we respond between 8am and 4pm Monday to Friday**
- We aim to respond the **same day**
- As a **parent or carer** you can use Ask My GP on behalf of a patient

Please go to our website www.nettlehammedical.co.uk for further information.

NURSING TEAM APPOINTMENTS

To request an appointment with a member of the nursing team you can speak with a receptionist. They will ask you what the appointment is for; this is not them being nosy but purely to ensure that they book the appointment with the most appropriate member of the nursing team and for the correct amount of time.

THE PRACTICE TEAM

DOCTORS AND NURSE PRACTITIONERS

Both Doctors and Nurse Practitioners can deal with most medical issues. However, they may refer you to a different doctor in the practice or another member of the team who is more appropriate to help you.

PRACTICE NURSES

Practice Nurses are highly skilled practitioners. Different nurses have different skills, so it helps if you can let the receptionist know what service you require when booking your appointment to ensure you see the appropriate person. If it is a sensitive issue which you do not wish to disclose to the receptionist, book an appointment with any nurse and they will refer you on if they cannot help. Practice nurses are the best people to see with the following issues:

- Wound management—including dressings and removal of sutures
- Vaccinations—including childhood and influenza vaccinations
- Travel health advice and vaccinations
- Cervical smears
- Contraception services
- Sexually transmitted infection screening
- Asthma clinic
- COPD clinic (COPD is also known as emphysema)
- Diabetic clinic
- Warfarin monitoring
- Ear syringing (after 2 weeks of olive oil first)
- Hypertension reviews
- Learning disability reviews
- HRT checks
- Heart disease checks

HEALTHCARE ASSISTANTS AND PHLEBOTOMISTS

Healthcare Assistants can see you if you need the following:

- Blood tests ♦
- ECGs (tracings of your heart) ♦
- NHS Health Checks (also known as 'well man' and 'well woman' clinics, these are for those aged between 40 and 74)
- Wound management
- Ear syringing (after 2 weeks of olive oil first)
- Flu and Pneumonia Vaccinations
- B12 injections
- Smoking cessation
- Blood pressure *

Those marked with * can also be done through the PODs.

Those marked with ♦ need a doctor to request them so they can be interpreted correctly. Either bring the form the hospital gave you to the appointment or book an appointment with a doctor first.

DISPENSERS

Dispensers can help with any questions regarding prescriptions and repeat prescription ordering:

- Lost prescriptions
- Ordering extra medication for holidays etc.
- A repeat medication hasn't arrived at your nominated pharmacy
- Set up an online account to request repeat medication on the practice website
- You'd like medication you've previously been prescribed adding or removing to your repeat medication (depending on the medication, they'll either pass a message to your doctor, or ask you to book an appointment to see the doctor)
- Arrange to change the quantity of tablets supplied each month (e.g. if you have changed the dose of a tablet)

REFERRALS AND HOSPITAL TESTS

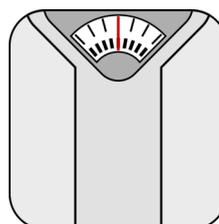

If you have not heard 4-6 weeks after you have been routinely referred to a specialist you should contact the Patient Advice and Liaison Service. The telephone numbers are: Lincoln County Hospital: 01522 707071, Grantham and District Hospital: 01476 464861 or Pilgrim Hospital: 01205 446243.

Results of tests are sent to the clinician who requested the test. So if a specialist or another healthcare provider requested a test, the surgery will often find out after you do. Please phone the specialist's secretary directly to check.

PODS

We have PODs in the reception areas at both Nettleham and Cherry Willingham surgeries. You can use these to check the following:

- Blood pressure
- Height, weight and body mass index (BMI)
- Test for depression or anxiety
- Alcohol use

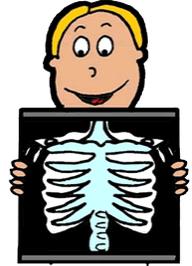

RESULTS

You can contact the reception team to request results by phoning 01522 751717.

Our staff are able to:

- Tell you whether a result is 'normal', 'satisfactory', 'borderline' or 'abnormal'. They can also read out the result to you and give you specific values. Sometimes a doctor would prefer you find this information out from a doctor so they can explain the results fully to you. Please note, if a result is not available on the results line it does not necessarily mean it is bad news - just a doctor would like to explain things to you themselves.
- Confirm whether we have received a result before you book an appointment with the doctor who arranged the test to discuss the findings:

Common examples are x-rays and ultrasound reports. Please ring the results line before booking an appointment as many appointments are wasted due to a technician at the hospital telling patients the results will be with us in 'one week'. Realistically it takes 3 weeks for a result to reach us. Even if they say they will fax the result to us the same day, this can still take up to 3 working days to reach the doctor to comment upon.
- Results of tests are sent to the clinician who requested the test. If a specialist or another healthcare provider requested the test, the surgery will often find out after you do. Please phone the specialist's secretary directly to check.

WHAT OTHER PROVIDERS CAN HELP ME?

HEALTHCARE

when it's less
urgent than 999

111 / URGENT CARE OUT OF HOURS

111 is the telephone number to ring if you need medical advice or help but it is not urgent enough to ring 999. They have healthcare advisors who can give you general health advice and information. If you need to see a doctor overnight or at weekends, ring 111 and they will arrange an appropriate assessment. If they feel you should see a doctor or nurse practitioner out of hours, they will give you an appointment at the out of hours centre which is located next door to A&E at Lincoln County Hospital.

DENTAL PROBLEMS

GPs are not trained in dental medicine so it would be dangerous practice for them to treat dental pain / toothache, therefore you should see a dentist for any dental related problems or pain. All dental surgeries have emergency appointments for patients who need to be seen the same day.

Website: You can find a list of local dentists at: www.nhs.uk and using the 'service search' tab.

Telephone: You can also ring 111 or the dental helpline on 0800 141 2552 if you need help accessing an NHS dentist.

LEG WOUND (ALREADY BEEN TREATED AT RAVENDALE CLINIC)

If you have already been treated at Ravendale Clinic for a leg wound, you can contact the clinic directly.

Telephone: 01522 530336

MINOR AILMENTS

Pharmacists are highly trained professionals and share a lot of their training with doctors and are specialised in drugs and medications. They can be the first point of call for most 'bugs' as they don't normally require antibiotics. They will direct you to your GP if they think you may need further assessment. Ailments which can usually be treated by a community pharmacist include:

- Athlete's Foot
- Chickenpox
- Cold Sores
- Colds
- Conjunctivitis
- Contact Dermatitis, Insect Bites, Stings, Pruritus, Eczema
- Dandruff
- Dry Eye
- Ear Wax
- Emergency Hormonal Contraception in women 20 years and older
- Headache / Earache / Temperature
- Haemorrhoids
- Hayfever
- Head lice
- Indigestion / Heartburn
- Mouth Ulcer
- Nappy rash
- Nasal congestion
- Sore throat
- Threadworm
- Thrush—oral
- Thrush—vaginal

Pharmacists can also give advice on:

- Blood pressure checks
- Advice on potential side effects of medications
- Advice on whether you can take a new medication or over the counter therapy with your existing regular medication

LOCAL PHARMACIES:

The Twins and Multiple Births Association, TAMBA, provides tips and information for parents with, or expecting, twins or more. They have a useful website.

Website: www.tamba.org.uk

CHILD HEALTH

CHILDREN'S HEALTH SERVICE 0—19 YEARS

Health visiting and school nursing services transferred to the Council on 1st October 2017.

The health visiting service remains largely unchanged, with a greater focus on antenatal education. Lincolnshire's Health Visitors will support children until the end of reception year at school (around age 6) and can offer advice on the following areas:

- Breastfeeding, bottle feeding and weaning advice
- Concerns regarding weight gain
- Dietary advice and advice for 'picky eaters'
- Behavioural problems—sleeping, potty training, tantrums etc.
- Constipation
- Routine developmental checks and concerns
- Postnatal depression
- Support with parenting and discipline

Children and young people from year 1 up to age 19 (or 25 if special educational needs and disability [SEND]) will be supported by Children and Young People's Nurses, instead of School Nurses.

Children and Young People's Nurses will:

- Support children and young people with long term or more complex health needs and other health concerns (including continence/enuresis, healthy weight, anaphylaxis etc.)
- Undertake a Health Needs Assessment for relevant safeguarding cases or referrals
- Support safeguarding and individual needs cases where a health need is identified

Height and weight measurement in reception year and year 6 will continue as normal.

Referrals to the service can be made by telephone.

Telephone: 01522 308800.

EMOTIONAL WELLBEING/ BEHAVIOUR ONLINE PATHWAY

An online single point of access is available for information and advice about services that can offer support for common emotion wellbeing, behaviour and mental health concerns including anxiety, body image, bullying, depression, eating concerns, exam stress etc.

Website: www.lincolnshire.gov.uk/ewb

HEALTHY MINDS LINCOLNSHIRE (EMOTIONAL WELLBEING SERVICE)

The Healthy Minds emotional wellbeing service, operated by Lincolnshire Partnership NHS Foundation Trust delivers evidence-based interventions to Lincolnshire children and young people up to the age of 19 (or 25 if SEND or care leaver) with emotional wellbeing concerns, including confidence issues, minor self-harm, relationship difficulties, exam stress, transition anxiety, self-esteem etc. The focus is on early intervention, building emotional resilience, normalising emotions and teaching coping and self-care skills to prevent concerns escalating to mental health issues.

Advice and signposting is available to parents/carers by contacting the service directly.

Telephone: 01522 309777 (Mon—Fri, 9.30am-4.30pm)

LINCOLNSHIRE INTEGRATED SEXUAL HEALTH SERVICE (LISH)

LISH is delivered by Lincolnshire Community Health Services NHS Trust and offers a young person's sexual health service throughout the county for teenagers from age 13 to 19 (or 25 if SEND). LISH provides the following services:

- Reproductive health—family planning, contraception advice, psychosexual counselling and C-card
- GUM sexual health—STI testing, diagnosis and treatment, support and advice, partner notification
- Coordination of the National Chlamydia Screening Programme within Lincolnshire

Telephone: 01522 309309 (Mon-Thurs, 8am—6.30pm and Fri, 8am—4.30pm)

Website: www.lincolnshirehealthyfamilies.nhs.uk/sexualhealth
